Public Hearing Scrapbook

The purpose of this scrapbook is to document the notification process and the information that was presented at the two Public Hearing sessions for the Tampa Interstate Study Supplemental Environmental Impact Statement. This document includes the following information:

- Description of the proposed improvements,
- Summary of the public hearing (including each session),
- Advertisements and notifications,
- Display graphics presented,
- PowerPoint/video presentation with script,
- Moderator script,
- Citizen and staff sign-in sheets,
- Comment forms and speaker cards compiled during public hearing, and
- Photos documenting each public hearing session.

A DVD is included containing electronic files of this scrapbook as well as the video presentation shown at each Public Hearing session.

Project Description

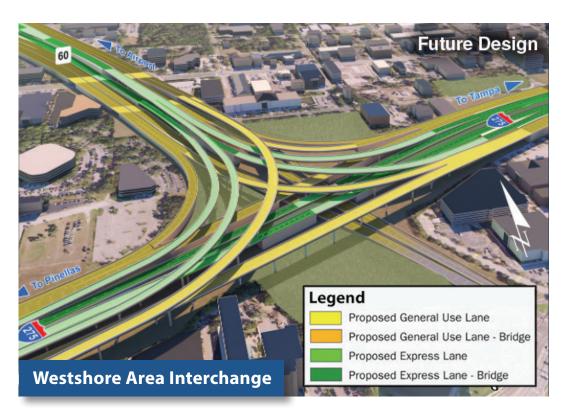

The Florida Department of Transportation (FDOT), District Seven, is conducting a Project Development and Environment (PD&E) Study for I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) in Hillsborough County, Florida. This project is known as the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS). The SEIS study area covers TIS Segments 1A, 2A, 2B, 3A, and 3B (also referred to as Tampa Bay Next Sections 4, 5, and 6); TIS Segment 3C has already been constructed. On January 27, 2020, the Federal Highway Administration approved the Draft TIS SEIS for public availability.

At the hearing, FDOT presented the Recommended Locally Preferred Alternative (LPA) which involves improvements to the Westshore Area Interchange (I-275/SR 60), the Downtown Tampa Interchange (I-275/I-4), as well as the I-275 corridor that connects these two areas. The LPA includes the following specific proposed improvements.

TIS Segments 1A and 2A – The full reconstruction of the Westshore Area Interchange would include three general purpose lanes and two new tolled express lanes in each direction, connecting the Howard Frankland Bridge and Westshore area to Downtown Tampa along I-275. The tolled express lanes would be constructed to the inside of the roadway. A transit corridor in the median would be preserved to accommodate future transit.

The tolled express lanes would also provide direct connections from I-275 to the Veterans Expressway, Independence Parkway, Courtney Campbell Causeway, Tampa International Airport via the I-275/SR 60 Interchange, Reo Street, and Himes Avenue. Himes Avenue would be an express lanes interchange with direct express lane ramps constructed to the south side, providing drivers from northbound I-275 access to Himes Avenue and drivers on Himes Avenue access to southbound I-275.

Local street improvements to enhance mobility would include the reconnection of Reo Street, Occident Street, and Trask Street under I-275 providing additional north-south connectivity. A new on-ramp from Reo Street to southbound I-275 would provide direct express lane access. A diverging diamond interchange at Reo Street will provide new connections between Kennedy Boulevard and Cypress Street.

TIS Segments 2B and 3A – Improvements to TIS Segment 2B include tolled express lanes that are a continuation from the Westshore area (TIS Segments 1A and 2A). Tolled express lanes would extend to Ashley Drive/Tampa Street via direct connect ramps, providing drivers direct access from northbound I-275 to Downtown Tampa via Ashley Drive only and to southbound I-275 from Downtown Tampa via Tampa Street and Ashley Drive. Improvements in this segment would also enhance safety and traffic operations within the I-275/I-4 interchange by addressing the existing bottlenecks that occur. Improvements do not include tolled express lanes. In addition, access to Floribraska Avenue would be maintained. No interstate access at North Boulevard is proposed. Additional details are below:

Southbound I-275 to Eastbound I-4 – The southbound I-275 to eastbound I-4 improvements would include widening the existing one lane flyover ramp to two lanes. Access to the local community would be provided via the existing exit ramp to Floribraska Avenue and a relocated ramp to 14th/15th Streets from 21st/22nd Streets for both northbound and southbound traffic on I-275. This new exit location would allow drivers access from I-275, meaning they will not need to merge onto I-4 to exit to Ybor City and East Tampa. Access to 21st/22nd Streets will be maintained from the relocated 14th/15th Street exits via E13th Avenue (frontage road), which will be widened to two lanes towards the inside.

Westbound I-4 to Northbound I-275 – The westbound I-4 to northbound I-275 improvements would include widening the existing one lane exit to northbound I-275 to two lanes. Additional merge lanes on northbound I-275 would be provided and the existing one lane exit ramp to Dr. Martin Luther King Jr. Boulevard would be widened to two lanes.

Westbound I-4 to Southbound I-275 – The westbound I-4 to southbound I-275 improvements would include widening the southbound I-275 ramp from two lanes to three lanes through the interchange. The three lanes would join the two lanes from southbound I-275 to provide five lanes for traffic to combine onto southbound I-275 before merging back to the existing four lanes at Jefferson Street. The exit to downtown would be relocated to improve the spacing of decision points between the split between northbound and southbound I-275 and the exit to downtown. Shoulders would be widened on southbound I-275 between Palm Avenue and Jefferson Street to improve safety.

TIS Segments 3B – There are no improvements proposed within TIS Segment 3B as part of the LPA.

Public Hearing Description

FDOT District Seven conducted public hearing sessions for the TIS SEIS on February 25 and 27, 2020.

The hearing allowed those interested in the study the opportunity to provide comments and express views concerning the location; conceptual design; and social, economic, cultural, and environmental effects of the proposed project.

The FDOT held the public hearing on two separate dates and locations to allow for maximum participation. The format of each hearing session and the information presented was identical.

Beginning at 5:00 p.m., FDOT representatives were available to answer questions and discuss the project. Project materials and exhibits showing the proposed improvements were also available. A PowerPoint presentation ran continuously during the open house. The formal portion of the public hearing began at 6:00 p.m. and afforded the opportunity for oral public comments. Court reporters were available to receive comments in a one-on-one setting before, during, and after the formal portion of the hearing.

On February 4, 2020, public hearing notifications were mailed to property owners and other stakeholders (including homeowner associations, civic groups and neighborhood associations). Elected officials and agencies were notified of the public hearing by email. Advertisements for the public hearing were published in the Tampa Bay Times, La Gaceta, and the Florida Sentinel; an advertisement was also published in the Florida Administrative Register. Additionally, a press release was issued and the public hearing was advertised via various electronic and social media platforms (including websites, Twitter, Facebook, etc.).

Draft study documents and other pertinent information depicting the project were available for review on the project website (www.tampainterstatestudy.com) beginning Tuesday, February 4, 2020 and at the following locations from Tuesday, February 4, 2020 to Thursday, March 12, 2020:

FDOT District Seven 11201 N McKinley Drive Tampa, FL 33612 (813) 975-6000 Business Hours: Mon-Fri 8:00 a.m. – 5:00 p.m Sat-Sun Closed

Robert W. Saunders, Sr. Public Library 1505 Nebraska Avenue Tampa, FL 33602 (813) 273-3652 Business Hours: Mon-Tue 10:00 a.m. – 8:00 p.m. Wed-Sat 10:00 a.m. – 6:00 p.m. Sun Closed

West Tampa Branch Library 2312 W Union Street Tampa, FL 33607 (813) 273-3652 Business Hours: Mon-Sat 10:00 a.m. – 6:00 p.m. Sun Closed Hillsborough Community College
Dale Mabry Campus Library
Learning Resources Center Building
4001 W Tampa Bay Boulevard
Tampa, FL 33614
(813) 253-7381
Business Hours:
Mon-Thu 8:00 a.m. – 8:00 p.m.
Fri-Sat 8:00 a.m. - 2:00 p.m.
Sun Closed

The study documents included:

- Draft TIS SEIS
- Preliminary Engineering Report-1A & 2A
- Preliminary Engineering Report-2B, 3A, & 3B
- Project Traffic Analysis Report
- Conceptual Stage Relocation Plan-1A & 2A
- Conceptual Stage Relocation Plan-2B, 3A, & 3B
- Cultural Resource Assessment Survey Update-Vol I
- Cultural Resource Assessment Survey Update-Vol II
- Economic and Fiscal Impact Analysis
- Sociocultural Effects Evaluation
- Alternate Stormwater Management Report

- Location Hydraulics Technical Memorandum
- Location Hydraulics Report
- Natural Resources Evaluation-1A & 2A
- Natural Resources Evaluation-2B, 3A, & 3B
- Pond Siting Report-2B, 3A, & 3B
- Water Quality Impact Evaluation Checklist
- Air Quality Technical Memorandum
- Contamination Screening Evaluation Report-1A & 2A
- Contamination Screening Evaluation Report-2B, 3A, & 3B
- Noise Study Report Update
- Public Workshops Scrapbook-October 2017
- Alternatives Public Workshops Scrapbook-May 2019

The documents were also displayed at the public hearing.

Below are the dates, locations, number of attendees, and number of comments received pertaining to each public hearing session.

Public Hearing Session 1

DATE: Tuesday, February 25, 2020

TIME: 5:00 p.m. to 7:30 p.m. (Open House)

6:00 p.m. (Formal Portion)

WHERE: Hillsborough County Community College

Dale Mabry Campus

Student Services Building

4001 West Tampa Bay Boulevard

Tampa, FL 33614

ATTENDEES: **78** public attendees (46 FDOT staff)

COMMENTS: 6 written comments

SPEAKERS: 2 oral comments | 2 comments to court reporters (one-on-one)

Public Hearing Session 2

DATE: Thursday, February 27, 2020

TIME: 5:00 p.m. to 7:30 p.m. (Open House)

6:00 p.m. (Formal Portion)

WHERE: Port Tampa Bay Cruise Terminal #6

1331 McKay Street

Tampa, FL 33602

ATTENDEES: 65 public attendees (45 FDOT staff)

COMMENTS: 5 written comments
SPEAKERS: 18 oral comments

An additional 91 comments were mailed or emailed to the FDOT during the comment period following the public hearing sessions that ended on March 12, 2020.

February 2020

Tampa Interstate Study Supplemental Environmental Impact Statement Schedule

The Study is anticipated to be completed by Fall 2020.

Phase	Anticipated Completion
Project Kick Off/Notice of Intent to Prepare SEIS	January 2017
Concept Development	Spring/Summer 2017
1 st Public Workshop	October 2017
Concept Refinement	Winter 2017/2018
2 nd Public Workshop	May 2019
FHWA Approves Draft SEIS/ Notice of Public Availability	January 27, 2020
Public Hearing	February 25 & 27, 2020
Finalize SEIS Documents	Spring/Summer 2020
NEPA Complete (Final SEIS/ Record of Decision)	Fall 2020

FDOT

TAMPA INTERSTATE STUDY | SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT

PUBLIC HEARING

Work Program Item Segment Number: 258337-2

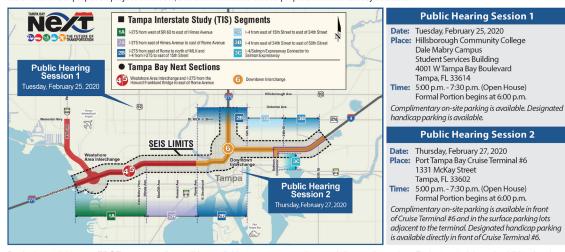

NOTICE

February 2020

Dear Property Owner and/or Interested Citizen:

You are invited to attend and participate in the Florida Department of Transportation (FDOT) District Seven public hearing regarding the Project Development and Environment (PD&E) Study for I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) in Hillsborough County, Florida. This project is known as the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS) and involves improvements to the Westshore Area Interchange (I-275/SR 60), the Downtown Tampa Interchange (I-275/I-4), as well as the I-275 corridor that connects these two areas. On January 27, 2020, the Federal Highway Administration approved the Draft TIS SEIS.

This hearing allows those interested in the study the opportunity to provide comments and express views concerning the location; conceptual design; and social, economic, cultural, and environmental effects of the proposed project. The hearing will cover TIS Segments 1A, 2A, 2B, 3A, and 3B (also referred to as Tampa Bay Next Sections 4, 5, and 6) as displayed on the map below. The FDOT is holding this public hearing on two separate dates and locations to allow for maximum participation. The format of each hearing session and the information presented will be identical. This letter serves as notice to property owners (pursuant to Florida Statute 339,155) that all or a portion of their property is within at least 300 feet on either side of the proposed project. However, this does not mean that all properties will be directly affected.

Beginning at 5:00 p.m., FDOT representatives will be available to answer questions and discuss the project. Project materials and exhibits showing the proposed improvements will be available. A PowerPoint presentation will run continuously during the open house. The formal portion of the public hearing will begin at 6:00 p.m. and will provide the opportunity for oral public comments.

A court reporter will be available to receive comments in a one-on-one setting before and after the formal portion of the hearing. You may submit written comments at the hearing, mail your written comments to the address pre-printed on the back of the enclosed comment form (also provided at the hearing), or enter them on the project website at www.tampainterstatestudy.com. All comments must be postmarked or emailed by Thursday, March 12, 2020 to become part of the official public hearing record.

Oraft study documents and other pertinent information depicting the project's recommendation will be available for review on the project website beginning Tuesday, February 4, 2020 and at the following locations from Tuesday, February 4, 2020 to Thursday, March 12, 2020:

FDOT District Seven 11201 N McKinley Drive Tampa, FL 33612 (813) 975-6000 Business Hours: Mon-Fri 8:00 a.m. – 5:00 p.m. Sat-Sun Closed Robert W. Saunders, Sr. Public Library 1505 Nebraska Avenue Tampa, FL 33602 (813) 273-3652 Business Hours: Mon-Tue 10:00 a.m. – 8:00 p.m. Wed-Sat 10:00 a.m. – 6:00 p.m. West Tampa Branch Library 2312 W Union Street Tampa, FL 33607 (813) 273-3652 Business Hours: Mon-Sat 10:00 a.m. – 6:00 p.m. Sun Closed Hillsborough Community College Dale Mabry Campus Library Learning Resources Center Building 4001 W Tampa Bay Boulevard Tampa, FL 33614 (813) 253-7381 Business Hours: Mon-Thu 8:00 a.m. – 8:00 p.m. Fri-Sat 8:00 a.m. – 2:00 p.m.

FDOT welcomes and appreciates everyone's participation. If you have questions about the project or the hearing, please contact Alice Price, AICP, PD&E Project Manager, at (813) 975-6482 or <a href="https://doi.org/10.1111/journal.org/10.1111/jour

Kirk Bogen, P.E.

Study Purpose

A PD&E Study is a comprehensive evaluation of social, cultural, economic, and environmental effects associated with proposed transportation improvements. The objective of this PD&E Study is to assist the FDOT and the Federal Highway Administration (FHWA) in deciding the type, location, and conceptual design of the proposed improvements for the Westshore Area Interchange, the Downtown Tampa Interchange, and the section of I-275 between those interchanges. The PD&E Study satisfies all applicable requirements, including the National Environmental Policy Act (NEPA), for this project to qualify for federal-aid funding of subsequent development phases (right of way, design, and construction).

The purpose of the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS) is to upgrade the safety and efficiency of the existing I-275 and I-4 corridors that service the Tampa Bay region while maintaining access to the surrounding community. The project also intends to provide congestion relief that improves accessibility, mobility, travel times, system linkages, and multimodal connections, while supporting regional economic development goals and enhancing the quality of life for residents and visitors.

Project History

The Tampa Bay region interstate system was originally constructed in the early 1960s. In 1983, FDOT began to study and identify potential improvements to the interstates within the area, including I-275 and I-4. In 1987, FDOT began Phase I of the TIS. The TIS limits include approximately 15 miles of I-275 and I-4 and begin at I-275 from the Howard Frankland Bridge/Kennedy Boulevard ramps north to Dr. Martin Luther King Jr. Boulevard, I-4 from I-275 to east of 50th Street, the proposed Selmon Connector from I-4 southward to the existing Selmon Expressway, and approximately 4.4 miles of the Selmon Expressway from the Kennedy Boulevard overpass east to Maydell Drive in Hillsborough County.

In 1983, FDOT began to identify potential improvements to the Tampa Interstate System, which was originally constructed in the early 1960s. These improvements included potential short-term safety solutions, design changes, and long-term high-occupancy vehicle (HOV)

related improvements to accommodate growing traffic volumes and address congestion. The 1983 study considered all transportation needs within the study area, including concurrent highway, rail, and/or transit improvements.

Using the 1983 study as a base, FDOT began Phase I of the TIS in 1987. The purpose of the Phase I study was to produce a Master Plan to identify alternatives and make recommendations regarding the preferred type and location of multi-lane improvements, potential HOV facilities, transit facilities, traffic management techniques, and traffic surveillance and control systems. FDOT published the TIS Master Plan Report, and the Federal Highway Administration (FHWA) approved the Plan in 1989.

Following completion of the TIS Master Plan Report, FHWA, in cooperation with FDOT, began the preparation of an Environmental Impact Statement (EIS) in 1991 and the supporting documentation necessary for state and federal approvals and subsequent funding of the TIS Master Plan Report concepts. The EIS evaluated impacts associated with various alternatives, addressed agency and citizen concerns, and identified ways to minimize impacts.

FHWA approved the TIS Final Environmental Impact Statement (FEIS) in November 1996, issued the Record of Decision (ROD) in 1997, and an amended ROD in June 1999. The 1997 and the 1999 RODs are the documents that have governed the development of all improvements to I-275 and I-4 and provide a roadway system that includes general use lanes, separated express lanes in each direction, as well as a future transit corridor. The intent of the FHWA and FDOT has been to construct the 1996 TIS FEIS Long-Term Preferred Alternative as funding becomes available. Since issuance of the 1997 ROD and the amended 1999 ROD, FDOT has taken several major steps to advance the project to full implementation. The TIS has been re-evaluated several times to advance various elements of the project, many of which have been constructed, including portions of TIS Segments 1A, 2A, 3A, 3B, and 3C (see map).

In 2012, with the release of the Florida Transportation Vision for the 21st Century, FDOT initiated a master plan study which included the TIS limits to determine the feasibility of dynamically tolling the express lanes on the interstate system as the 1996 TIS FEIS did not consider tolling at the time. The Tampa Bay Express (TBX) Master Plan, completed in 2015, established a system-wide framework for implementation of dynamically-tolled express lanes on interstates within the Tampa Bay region.

Realizing the community's desire for a more collaborative and transparent conversation about transportation at the community and regional levels, FDOT reset their focus and launched Tampa Bay Next in 2017 to better engage the public and expand the consideration of improvements to include transit accommodations, bicycle and pedestrian facilities, and smart technology. FHWA published the Notice of Intent for the TIS SEIS for the 1996 TIS FEIS to address and update traffic data; consider regional growth; and evaluate changes along the corridor, including potential environmental and human impacts, since the approved 1996 FEIS and subsequent re-evaluations.

Right-Of-Way Procedure

When a transportation project proposes the acquisition of private property, you may have questions and concerns. To better educate and inform you about the right-of-way acquisition process and your rights, the FDOT has created real estate acquisition and relocation informational brochures. These brochures and other education materials will be available during the public hearing. Copies of the brochures are available on our website at: https://www.fdot.gov/rightofway/documents.shtm. We would like to hear your concerns and answer your questions. We also encourage you to speak with the FDOT Right-of-Way Representative at your convenience either at the hearing or at 800-226-7220.

Funding

Project	FDOT Tentative Five-Year Work Program (FY 2020/2021 - FY 2024/2025)					
Phase	I-275 from Howard Frankland Bridge to North of Hillsborough River	Downtown Tampa Interchange (I-275/I-4) Operational Improvements	I-4 from East of 22nd Street to East of 50th Street

TBD = To Be Determine

^{*}A portion of TIS Segment 3B overlaps with partially funded improvements of Tampa Bay Next Section 8, (Financial Project Identification Number 431746-3-52-01), including the beginning of the express lane system heading east on I-4.

Alternatives

Since the TIS SEIS kicked off, FDOT engaged with numerous neighborhoods, coordinated with local agencies, participated in community events, and held Community Working Groups within and outside of the SEIS study area. FDOT also hosted public workshops in October 2017 and May 2019 and had a Public Involvement Office in Ybor City. These outreach activities have presented opportunities for the public to learn more about the project and provide feedback on proposed alternatives and design options. Following the evaluation of potential effects of proposed alternatives and input from the community and stakeholders, a Locally Preferred Alternative has been identified and recommended to the FHWA for approval. The No Further Action Alternative will continue to remain a viable alternative throughout the PD&E Study process. Descriptions of these alternatives are provided below.

No Further Action Alternative

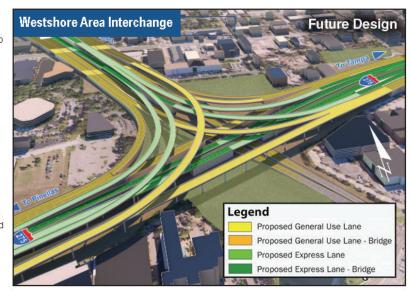

The No Further Action Alternative is defined as the existing transportation system plus the improvements approved in the 1997 and 1999 RODs. These improvements include the construction of the general use lanes (outer roadways) and associated ramps within the I-275/ SR 60 Interchange (Westshore Area Interchange) in TIS Segment 1A, which were approved under the 1997 ROD. Within the TIS SEIS study area, all other improvements approved in the 1997 and 1999 RODs have already been built.

Locally Preferred Alternative (LPA)

The LPA includes the following specific proposed improvements.

TIS Segments 1A and 2A – The full reconstruction of the Westshore Area Interchange would include three general purpose lanes and two new tolled express lanes in each direction, connecting the Howard Frankland Bridge and Westshore area to Downtown Tampa along I-275. The tolled express lanes would be constructed to the inside of the roadway. A transit corridor in the median would be preserved to accommodate future transit.

The tolled express lanes would also provide direct connections from I-275 to the Veterans Expressway, Independence Parkway, Courtney Campbell Causeway, Tampa International Airport via the I-275/SR 60 Interchange, Reo Street, and Himes Avenue. Himes Avenue would be an express lanes interchange with direct express lane ramps constructed to the south side, providing drivers from northbound I-275 access to Himes Avenue and drivers on Himes Avenue access to southbound I-275.

Local street improvements to enhance mobility would include the reconnection of Reo Street, Occident Street, and Trask Street under I-275 providing additional north-south connectivity. A new on-ramp from Reo Street to southbound I-275 would provide direct express lane access. A diverging diamond interchange at Reo Street will provide new connections between Kennedy Boulevard and Cypress Street.

TIS Segments 2B and 3A – Improvements to TIS Segment 2B include tolled express lanes that are a continuation from the Westshore area (TIS Segments 1A and 2A). Tolled express lanes would extend to Ashley Drive/Tampa Street via direct connect ramps, providing drivers direct access from northbound I-275 to Downtown Tampa via Ashley Drive only and to southbound I-275 from Downtown Tampa via Tampa Street and Ashley Drive. Improvements in this segment would also enhance safety and traffic operations within the I-275/I-4 interchange by addressing the existing bottlenecks that occur. Improvements do not include tolled express lanes. In addition, access to Floribraska Avenue would be maintained. No interstate access at North Boulevard is proposed.

Additional details are below:

- Southbound I-275 to Eastbound I-4 -The southbound I-275 to eastbound I-4 improvements would include widening the existing one lane flyover ramp to two lanes. Access to the local community would be provided via the existing exit ramp to Floribraska Avenue and a relocated ramp to 14th/15th Streets from 21st/22nd Streets, for both northbound and southbound traffic on I-275. This new exit location would allow drivers access from I-275 meaning they will not need to merge onto I-4 to exit to Ybor City and East Tampa. Access to 21st/22nd Streets will be maintained from the relocated 14th/15th Street exits via E13th Avenue (frontage road), which will be widened to two lanes towards the inside
- Westbound I-4 to Northbound I-275 The westbound I-4 to northbound I-275 improvements would include widening the existing one lane exit to northbound I-275 to two lanes. Additional merge lanes on northbound I-275 would be provided and the existing one lane exit ramp to Dr. Martin Luther King Jr., Boulevard would be widened to two lanes.
- Westbound I-4 to Southbound I-275 -The westbound I-4 to southbound I-275 improvements would include widening the southbound I-275 ramp from two lanes to three lanes through the interchange. The three lanes would join the two lanes from southbound I-275 to provide five lanes for traffic to combine onto southbound I-275 before merging back to the existing four lanes at Jefferson Street. The exit to downtown would be relocated to improve the spacing of decision points between the split between northbound and southbound I-275 and the exit to downtown. Shoulders would be widened on southbound I-275 between Palm Avenue and Jefferson Street to improve

TIS Segment 3B – There are no improvements proposed within TIS Segment 3B as part of the LPA

Florida Administrative Register

Volume 46, Number 33, February 18, 2020

The Valerin Group, Inc.

The Florida Department of Transportation announces a public meeting to which all persons are invited.

DATE AND TIME: Thursday, February 27, 2020, 5:00 p.m. – 7:00 p.m.

PLACE: Elliot Hall, 2501 NE 30th Street, Fort Lauderdale, FL 33306

GENERAL SUBJECT MATTER TO BE CONSIDERED: Financial Management No.: 429569-5-52-02. Project Description: State Road (SR) 816/Oakland Park Boulevard Mobility Improvement Project, from NW 136th Avenue to North Atlantic Boulevard, in Broward County, Florida. The project improvements in the cities of Sunrise, Lauderhill and Fort Lauderdale consist of widening the roadway to accommodate bike lanes, milling and resurfacing, providing shared lanes (sharrows) and adding signage and pavement markings. Other improvements include installing traffic signal priority from NW 136th Avenue to Pine Island Road, new drainage structures, sidewalks, and ADA upgrades to curb ramps. Construction begins in February 2020 and is estimated to be completed in Fall 2021.

A copy of the agenda may be obtained by contacting: There will be no agenda.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Bodler Barthelemy, P.E., FDOT Project Manager, at (954)958-7685 or by email at bodler.barthelemy@dot.state.fl.us. Elected Officials Email Notification

Subject:

Public Hearing Notification for Tampa Interstate Study Supplemental Environmental Impact Statement Project Development and Environment (PD&E) Study, Hillsborough County, Work Program Item Segment Number

Friday, January 31, 2020 9:58:16 AM

Dear Elected Officials and Staff:

The Florida Department of Transportation (FDOT) District Seven will hold a public hearing regarding the Project Development and Environment (PD&E) Study for I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) in Hillsborough County, Florida. This project is known as the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS) and includes Tampa Interstate Study Segments 1A, 2A, 2B, 3A, and 3B (also referred to as Tampa Bay Next Sections 4, 5, and 6). The proposed project involves improvements to the Westshore Area Interchange (I-275/SR 60), the Downtown Tampa Interchange (I-275/I-4), as well as the I-275 corridor that connects these two areas. On January 27, 2020, the Federal Highway Administration approved the Draft TIS SEIS.

The public hearing will be held on two separate dates and locations to allow for maximum participation. The format of each hearing session and the information presented will be identical. The dates and locations of the public hearing sessions are as follows:

Public Hearing Session 1

Date: Tuesday, February 25, 2020

Place: Hillsborough Community College Dale Mabry Campus

Student Services Building 4001 W Tampa Bay Boulevard

Tampa, FL 33614

Time: Open House: 5:00 p.m. – 7:30 p.m.

Formal Portion: 6:00 p.m.

Complimentary on-site parking is available. Designated handicap parking is available.

Public Hearing Session 2

Date: Thursday, February 27, 2020 Place: Port Tampa Bay Cruise Terminal #6

1331 McKay Street

Tampa, FL 33602

Time: Open House: 5:00 p.m. - 7:30 p.m.

Formal Portion: 6:00 p.m.

Complimentary on-site parking is available in front of Cruise Terminal #6 and in the surface parking lots adjacent to the terminal. Designated handicap parking is available directly in

front of Cruise Terminal #6.

A copy of the notice, including a location map depicting the hearing session locations, is attached for your reference. This notice is being sent to all property owners and tenants located within at least 300 feet on either side of the proposed project and to other public officials, regulatory agencies, organizations, and individuals interested in the project.

If you have any questions about the project or the scheduled public hearing, please contact the PD&E Project Manager, Alice Price, AICP at (813) 975-6482 or D7-TIS@dot.state.fl.us.

Subject: Public Hearing Notification for Tampa Interstate Study Supplemental Environmental Impact Statement Project Development and Environment (PD&E) Study, Hillsborough County, Work Program Item Segment Number: 258337-2

EXTERNAL SENDER: Use caution with links and attachments.

The Florida Department of Transportation (FDOT) District Seven will hold a public hearing regarding the Project Development and Environment (PD&E) Study for I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) in Hillsborough County, Florida. This project is known as the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS) and includes Tampa Interstate Study Segments 1A, 2A, 2B, 3A, and 3B (also referred to as Tampa Bay Next Sections 4, 5, and 6). The proposed project involves improvements to the Westshore Area Interchange (I-275/SR 60), the Downtown Tampa Interchange (I-275/I-4), as well as the I-275 corridor that connects these two areas. On January 27, 2020, the Federal Highway Administration approved the Draft TIS SEIS.

The public hearing will be held on two separate dates and locations to allow for maximum participation. The format of each hearing session and the information presented will be identical. The dates and locations of the public hearing sessions are as follows:

Public Hearing Session 1

Date: Tuesday, February 25, 2020

Place: Hillsborough Community College Dale Mabry Campus

Student Services Building

4001 W Tampa Bay Boulevard

Tampa, FL 33614

Time: Open House: 5:00 p.m. - 7:30 p.m.

Formal Portion: 6:00 p.m.

Complimentary on-site parking is available. Designated handicap parking is available.

Public Hearing Session 2

Date: Thursday, February 27, 2020

Place: Port Tampa Bay Cruise Terminal #6

1331 McKay Street

Tampa, FL 33602

Time: Open House: 5:00 p.m. - 7:30 p.m.

Formal Portion: 6:00 p.m.

Complimentary on-site parking is available in front of Cruise Terminal #6 and in the surface parking lots adjacent to the terminal. Designated handicap parking is available directly in front of Cruise Terminal #6.

A copy of the notice, including a location map depicting the hearing session locations, is attached for your reference. This notice is being sent to all property owners and tenants located within at least 300 feet on either side of the proposed project and to other public officials, regulatory agencies, organizations, and individuals interested in the project.

If you have any questions about the project or the scheduled public hearing, please contact the PD&E Project Manager, Alice Price, AICP at (813) 975-6482 or D7-TIS@dot.state.fl.us.

You may also visit the project website at www.tampainterstatestudy.com

Press Release

FOR IMMEDIATE RELEASE February 18, 2020 CONTACT: Kris Carson, Public Information Officer (813) 975-6202

kristen.carson@dot.state.fl.us

The Florida Department of Transportation (FDOT) District Seven invites you to attend and participate in the public hearing regarding the Project Development and Environment (PD&E) Study for I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) in Hillsborough County, Florida. This project is known as the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS), Work Program Item Segment Number 258337-2, and includes Tampa Interstate Study Segments 1A, 2A, 2B, 3A, and 3B (also referred to as Tampa Bay Next Sections 4, 5, and 6). At the hearing, FDOT will present the Locally Preferred Alternative which involves improvements to the Westshore Area Interchange (I-275/SR 60), the Downtown Tampa Interchange (I-275/I-4), as well as the I-275 corridor that connects these two areas. On January 27, 2020, the Federal Highway Administration approved the Draft TIS SEIS.

The FDOT is holding this public hearing on two separate dates and locations to allow for maximum participation. The format of each hearing session and the information presented will be identical. The hearing is being held to allow those interested in the study the opportunity to provide comments and express views concerning the location; conceptual design; and social, economic, cultural, and environmental effects of the proposed project.

The first public hearing session will be held on Tuesday, February 25, 2020 in the Student Services Building of the Hillsborough Community College Dale Mabry Campus located at 4001 W Tampa Bay Boulevard, Tampa, FL 33614. Complimentary on-site parking is available. Designated handicap parking is also available. The second public hearing session will take place on Thursday, February 27, 2020 at Port Tampa Bay Cruise Terminal #6 located at 1331 McKay Street, Tampa, FL 33602. Complimentary on-site parking is available in front of Cruise Terminal #6 and in the surface parking lots adjacent to the terminal. Designated handicap parking is available directly in front of Cruise Terminal #6.

Beginning at 5:00 p.m., FDOT representatives will be available to answer questions and discuss the project. Project materials and exhibits showing the proposed improvements will be available. A PowerPoint presentation will run continuously during the open house. The formal portion of the public hearing will begin at 6:00 p.m. and will provide the opportunity for oral public comments.

A court reporter will be available to receive comments in a one-on-one setting before and after the formal portion of the hearing. Interested persons may also submit written comments during the hearing or at a later date to Kirk Bogen, P.E., Environmental Management Engineer, FDOT District Seven, 11210 N McKinley Drive, MS 7-500, Tampa, FL 33612-6456, as well as email comments to D7-TIS@dot.state.fl.us or submit electronically through the "Send Us Your Comments" page at www.tampainterstatestudy.com. All comments must be postmarked or <a href="mailto:emai

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation service (free of charge) should contact Alex Henry, Public Involvement Coordinator, at (813) 975-6405 or alex.henry@dot.state.fl.us at least seven (7) days in advance of each hearing session. Persons who are hearing or speech impaired should contact the agency using the Florida Relay Service, 1 (800) 955-8771 (TDD) or 1 (800) 955-8770 (Voice).

Número de segmento del artículo del programa de trabajo: 258337-2

El Distrito Siete del Departamento de Transporte de Florida (FDOT) está celebrando una audiencia pública para la Declaración de Impacto Ambiental Suplementario (SEIS) del Estudio Interestatal de Tampa (TIS), los días 25 y 27 de febrero de 2020. El área de estudio incluye el Westshore Intercambio (I-275/SR 60) y el Downtown Tampa Intercambio (I-275/I-4) y áreas en el medio. La audiencia pública se llevará a cabo en dos fechas separadas para permitir la máxima participación. La información presentada en cada audiencia será idéntica. A partir de las 5:00 p.m., los representantes del FDOT estarán disponibles para responder preguntas y discutir el proyecto. La parte formal comenzará a las 6:00 p.m., brindando la oportunidad de hacer comentarios públicos orales. Un reportero de la corte estará disponible para recibir comentarios antes y después de la parte formal de la audiencia. Para proporcionar un comentario en línea o para ver la notificación de audiencia pública completa, visite

www.tampainterstatestudy.com

Para más información sobre este proyecto: **www.tampabayinterstatestudy.com, D7-TIS@dot.state.fl.us** Para obtener información sobre el Programa Tampa Bay Next: **www.TampaBayNext.com, TampaBayNext@dot.state.fl.us, 813-975-6398**

La participación pública se solicita sin importar la raza, el color, el origen nacional, la edad, el sexo, la religión, la discapacidad o la condición familiar.

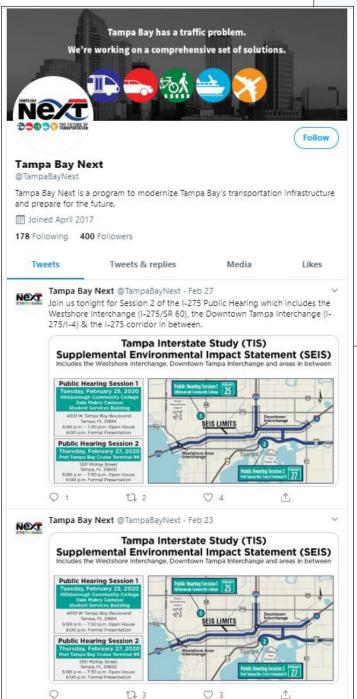

Las personas con discapacidades que requieren adaptaciones bajo la Ley de Estadounidenses con Discapacidades o las personas que requieren servicios de traducción (gratis) deben comunicarse con Alex Henry, por teléfono al (813) 975-6445, o por corre o electrónico a alex henry@dot state.fl.us al menos siete (7) días antes de la reunión. Si tiene problemas de audición o del habla, pórgase en contacto con nosotros utilizando el Servicio de Retransmisión de Fiordia, 1-800-955-8771 (100) o 1-800-955-8770 (100) o 1-800-955-8770 (100) o 1-800-955-870 (100).

Comuníquese Con Nosotros: Nos importa mucho la opinión del público sobre el proyecto. FDOT to hold public hearings on Tampa Interstate

Article Link
By WFTS Digital Staff – WFTS ABC Action News Tampa Bay, February 25, 2020

TAMPA, Fla. — The Florida Department of Transportation District Seven is inviting the public to attend meetings on a project known as the Tampa Interstate Study (TIS).

The meetings have to do with the Project Development and Environment (PD&E) Study for I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) in

The project is known as the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS), Work Program Item Segment Number 258337-2, and includes Tampa Interstate Study Segments 1A, 2A, 2B, 3A, and 3B (also referred to as Tampa Bay Next Sections 4, 5, and 6), according to FDOT.

FDOT is holding two public hearings on different dates and at different locations to allow for maximum participation. The first will be Tuesday, February 25 in the Student Services Building of the Hillsborough Community College Dale Mabry Campus at 4001 W Tampa Bay Boulevard, Tampa. The second will be Thursday, February 27 at Port Tampa Bay Cruise Terminal #6 located at 1331 McKay Stree.

Beginning at 5 p.m., FDOT representatives will be on hand to answer questions. The formal portion of the hearings will being at 6 p.m.

Click here for more information.

Work Program Item Segment Number: 258337-2

The Florida Department of Transportation (FDOT) District Seven is holding a public hearing for the Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS) on February 25th and 27th, 2020. The study area includes the Westshore Interchange (I-275/I-5) and areas in between.

The public hearing will be held on two separate dates to allow for maximum participation. The information presented at each hearing will be identical. Beginning at 5:00 p.m., FDOT representatives will be available to answer questions and discuss the project. The formal portion will begin at 6:00 p.m., providing the opportunity for oral public comments. A court reporter will be available to receive comments before and after the formal portion of the hearing. TAMPA INTERSTATE STUDY **PURPOSE AND NEED**

- Vital connections to regional transportation network consistent with long range plans
- Congestion relief that reduces travel times and duration of congestion
- Meet future travel demand generated by population and employment growth
- Safer, more efficient transportation system for increased traffic in existing transportation corridor
- Multimodal transportation corridor to complement surrounding community from transportation, economic and social aspect
- Efficient and convenient access to economic activity centers to support economic vitality
- Regional and interstate movement of people and goods and access to regional facilities

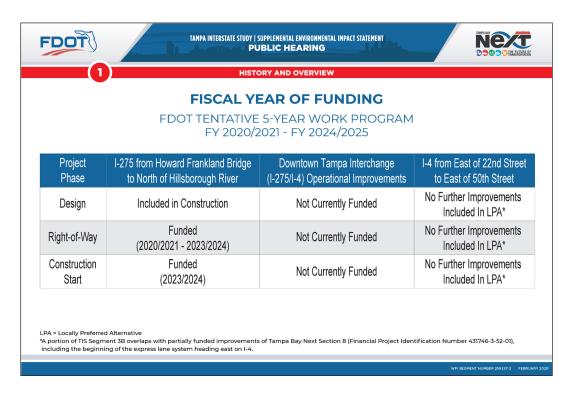

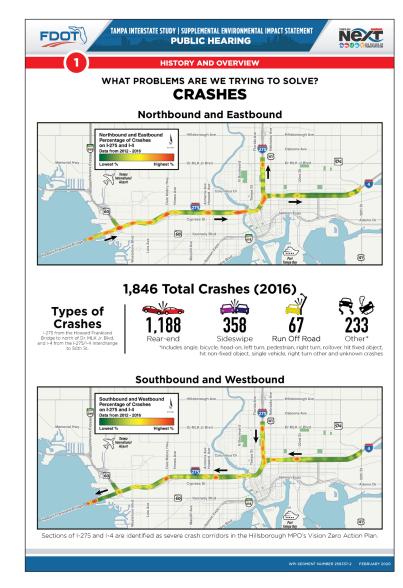

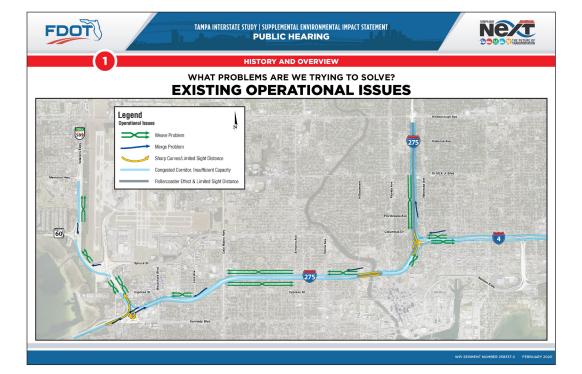

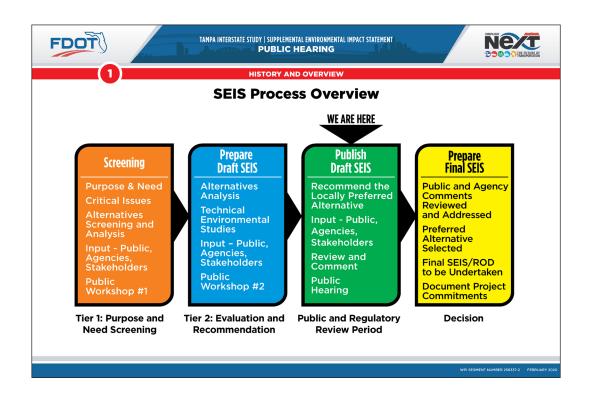

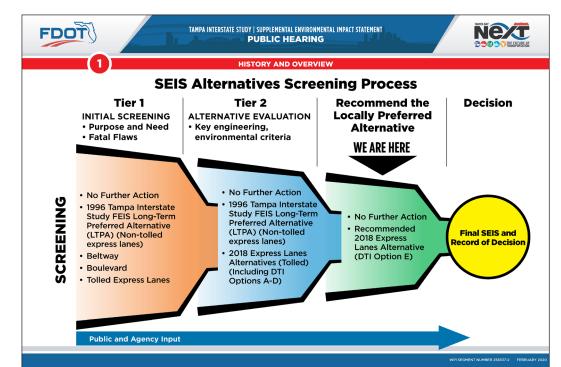

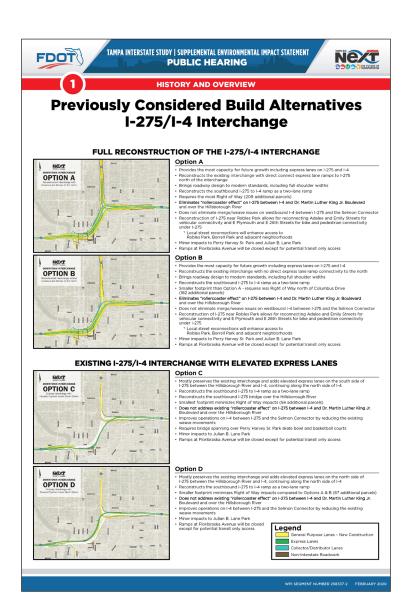

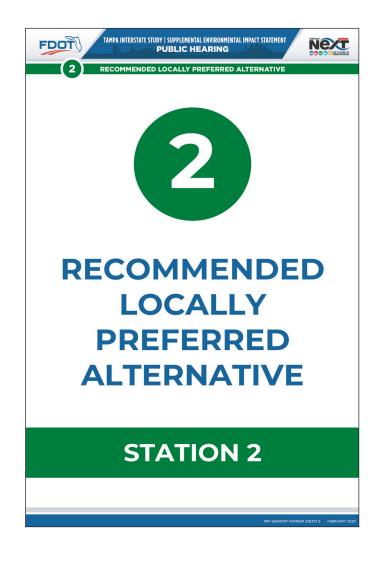

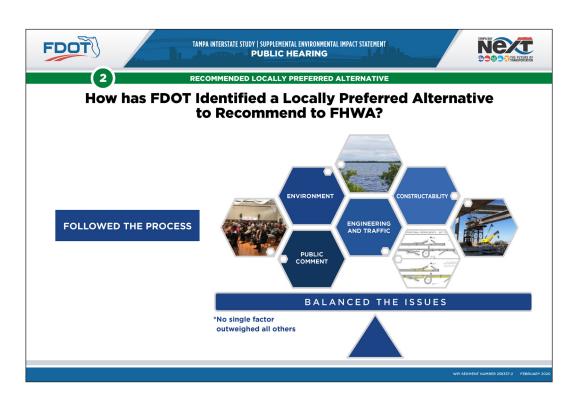

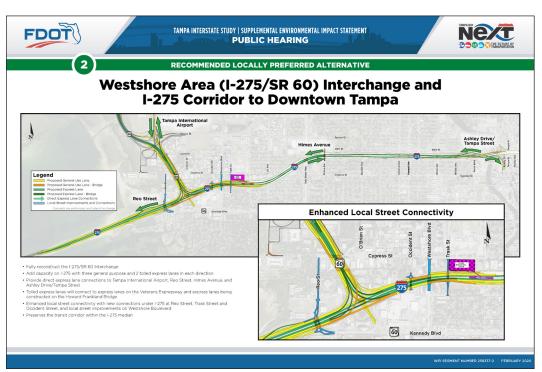

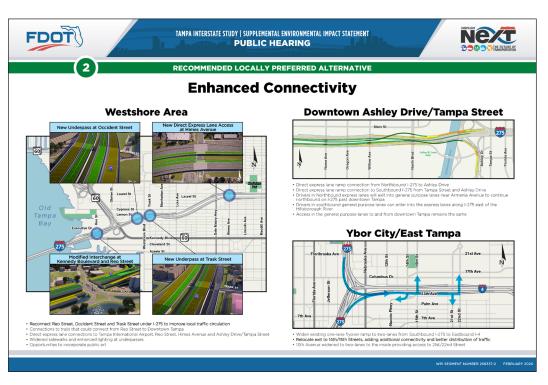

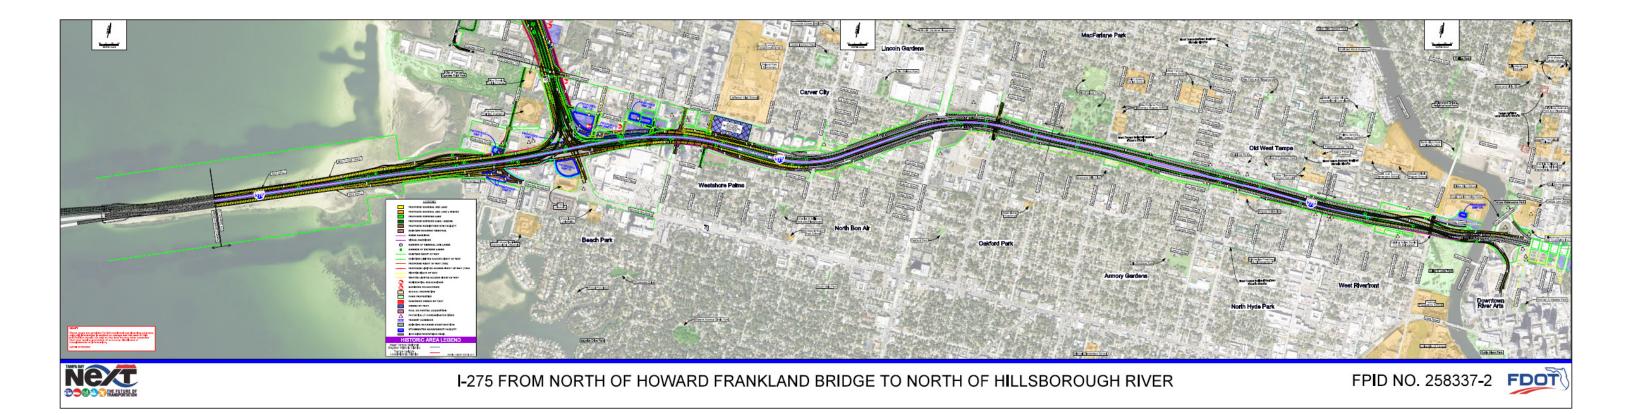

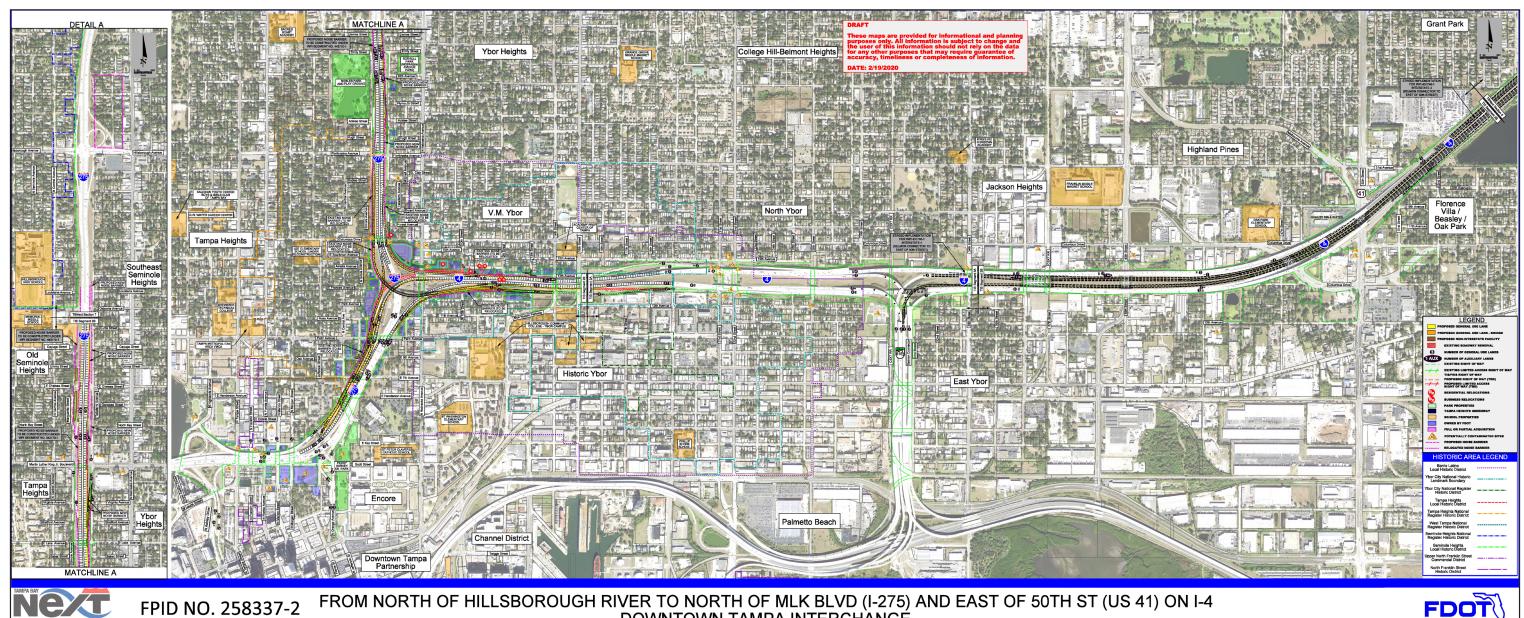

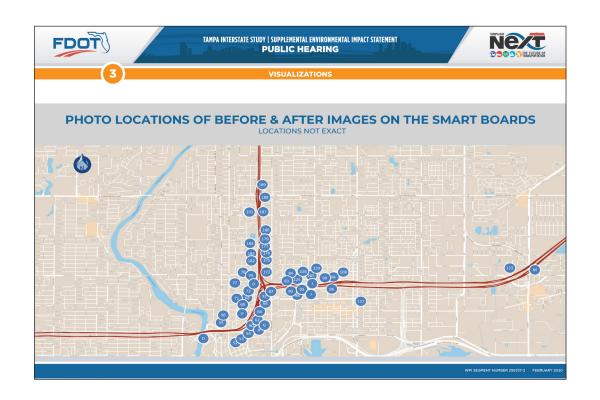

FROM NORTH OF HILLSBOROUGH RIVER TO NORTH OF MLK BLVD (I-275) AND EAST OF 50TH ST (US 41) ON I-4 DOWNTOWN TAMPA INTERCHANGE

Welcome

to the Public Hearing for the

Tampa Interstate Study Supplemental Environmental Impact Statement

I-275 (SR 93) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard (SR 574) and I-4 (SR 400) from I-275 (SR 93) to east of 50th Street (US 41) Work Program Item Segment #258337-2

February 25 & 27, 202

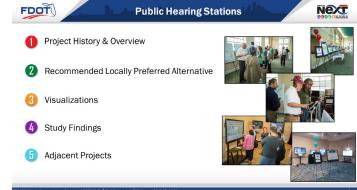

The Florida Department of Transportation (or F-D-O-T) welcomes you to the Public Hearing for the Tampa Interstate Study Supplemental Environmental Impact Statement, which encompasses improvements to Interstate 275 <two seventy-five> (or I-275) from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard and Interstate 4 <four> (or I-4) from I-275 to east of 50th Street.

The meeting is being conducted to provide interested citizens an opportunity to ask questions and to offer comments about the Recommended Locally Preferred Alternative (or L-P-A) being proposed for this project.

This study satisfies requirements of the National Environmental Policy Act, or NEPA <neepa>, and other applicable policies, regulations, and procedures.

For a full list of federal and state requirements, please see the citation board located at the sign-in table.

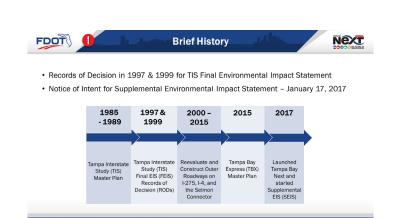

We have a lot of information on display tonight. To help you navigate our public hearing, we divided the room into five stations. Each station has a corresponding number and color. At the top left corner of each slide, there is a reference to one of the five stations.

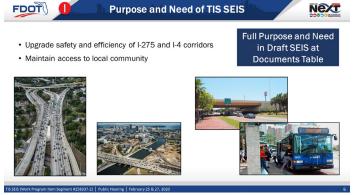

Not only do we have printed exhibits and physical documents available for review, we also have smartboards and TVs to help you visualize the proposed improvements. FDOT representatives are here tonight to help walk you through the stations and explain all of the information.

The project presented tonight – the Tampa Interstate Study Supplemental Environmental Impact Statement (or T-I-S S-E-I-S) – is part of Tampa Bay Next, a program to modernize our region's transportation infrastructure and prepare it for the future. The program incorporates improvements to our region's interstate system with opportunities to integrate transit, bicycle, and pedestrian facilities. The hearing tonight covers Tampa Bay Next Sections 4, 5, and 6 or Segments 1A, 2A, 2B, 3A, and 3B of the T-I-S S-E-I-S

The T-I-S started back in the late 1980s with a master plan that led to the development of the 1996 Final Environmental Impact Statement (or F-E-I-S). The Federal Highway Administration issued an original Record of Decision in 1997 and an amended Record of Decision in 1999. Some of the project has been built, including the widening of I-275 in West Tampa, the widening of I-4 in East Tampa/Ybor <eebor>, and the I-4/Selmon Expressway Connector. In 2015, the F-D-O-T completed the feasibility study of tolled express lanes on Tampa Bay interstates. The T-I-S S-E-I-S was launched in 2017 when the Federal Highway Administration published the Notice of Intent for the study.

The purpose of the T-I-S S-E-I-S is to identify how to best upgrade the safety and efficiency of the existing I-275 <two seventy-five> and I-4 <four> corridors that service the Tampa Bay region, while maintaining access to the local community. The full purpose and need statement is available on the project website and is summarized in the Draft S-E-I-S

Since the S-E-I-S kicked off in 2017, FDOT hosted public workshops in October 2017 and May 2019 and has presented to numerous local organizations throughout the project area. Based on public input received and evaluation of potential effects of proposed alternatives, F-D-O-T is recommending a Locally Preferred Alternative (or L-P-A) that is being presented at tonight's hearing. On January 27, 2020, the Federal Highway Administration signed the Draft S-E-I-S to be released for public comment in the federal register.

The L-P-A includes the full reconstruction of the Westshore Area Interchange that will include tolled express lanes and general purpose lanes, the addition of tolled express lanes and general purpose lanes along the I-275 <two seventy-five> corridor connecting the Howard Frankland Bridge and Westshore area to Downtown Tampa, and improvements to the Downtown Tampa Interchange that will enhance safety and traffic operations. The proposed express lane improvements would provide direct connections from I-275 <two seventy-five> to the Veterans Expressway, Independence Parkway, Courtney Campbell Causeway, Tampa International Airport, the Westshore Business District, and Downtown Tampa. Please visit Stations 2 and 3 for more detailed project maps and visualizations.

Westshore Area Interchange (I-275/SR 60)

Proposed Improvements

- · Reconstruction of the interchange
- Improves general purpose lanes
- Direct connection between Howard Franklan Bridge & Tampa International Airport/
- Veterans Expressway & other local streets
 Adds 2 tolled express lanes and ramps in
- Preserves transit envelope in median of

TIS SFIS (Work Program Item Segment #258337-2) | Public Hearing | February 25 & 27, 202

The L-P-A proposes the complete reconstruction of the Westshore Area Interchange to bring it up to modern standards. With the new configuration, the general purpose lane ramp connections to and from State Road 60 and I-275 <two seventy-five> will be improved, and the existing loop ramp will be replaced with a two-lane flyover ramp, two tolled express lanes will be added in each direction along I-275 <two seventy-five>, and a transit corridor will be preserved for future transit use.

IS (Work Program Item Segment #258337-2) | Public Hearing | February 25 & 27, 202

A partial diverging diamond interchange at Reo Street will provide direct express lane access to southbound I-275 <two seventy-five> and new connections between Kennedy Boulevard and Cypress Street. New direct express lane connections will additionally be provided to/from I-275 <two seventy-five> to Himes Avenue. Tolled express lanes would extend to Ashley Drive/Tampa Street via direct connect ramps.

At a local level, the project will provide a significant benefit to the walk/bike network and traffic circulation in the Westshore Business District by reconnecting Reo Street/ Kennedy Boulevard, Occident Street, and Trask Street beneath the interstate and help relieve traffic congestion on Westshore Boulevard.

FDOT is also looking at trail connectivity adjacent to the interstate throughout the corridor

No Further Action Alternative

THE SEES Allock document from Common BASSESSES 11 | Doctor Version | Colonium 11 S 3 1

Southbound I-275 to Eastbound I-4

Widen 1 lane flyover exit ramp from SB I-275 to

2 SB I-275 exit ramp to Floribraska Avenue will

3 Modify EB exit ramp to provide access to both

Frontage road (E 13th Avenue) widened to 2 lane

14th/15th Streets and 21st/22nd Streets

The improvements to the Downtown Tampa Interchange proposed as part of the L-P-A are intended to address the existing safety and operational issues. They encompass three movements and only require acquisition of seven additional properties.

Downtown Tampa Interchange (I-275/I-4)

The first movement is from southbound I-275 <two seventy-five> to eastbound I-4 <four>. This operational improvement includes widening the existing one lane flyover exit ramp from southbound I-275 <two seventy-five> to eastbound I-4 <four> to two lanes. Access to the local community would be provided via the existing exit ramp to Floribraska Avenue and a modified eastbound exit ramp providing access to both 14th/15th Streets and 21st/22nd Streets. This modified exit would allow drivers to access Ybor <eebor> City and East Tampa without having to merge onto I-4 <four>. Access to 21st/22nd Streets will be maintained from the modified 14th/15th Street exits via East 13th Avenue, the existing frontage road, which will be widened to two lanes between 15th and 21st Streets. Other ramps to/from I-275 <two seventy-five> at 21st/22nd Streets will remain.

FDOT

· Viable alternative throughout the study

· Existing transportation system + improvements of

No-Build throughout study corridor except at

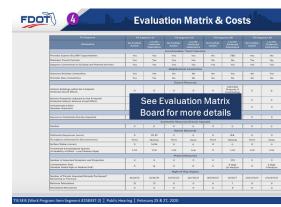

Westshore Area Interchange where FHWA approved widening of outside lanes in 1999

1997 & 1999 Records of Decision that have NOT

The No Further Action Alternative is considered a viable alternative throughout this study. This alternative is defined as the existing transportation system plus the improvements approved in the 1997 and 1999 Records of Decision that have not been constructed. These improvements include the construction of the general use lanes (or outer roadways) and associated ramps within the Westshore Area Interchange.

What Are We Evaluating in the SEIS? Tampa Interstate Study Supplemental Environmental Impact This graphic lists the various documents that FDOT is preparing as a part of this process Engineering Sociocultural **Effects** Considerations Outreach Physical Effect ublic and Agency Coordinati Air Quality Tech Memo latural Resources Evaluation Noise Tech Memo Pond Siting Report Section 106 Case Stud Public Workshops onceptual Stage Relocat Plan

F-D-O-T undertook a comprehensive evaluation of alternatives leading to the selection of the L-P-A by considering environmental and engineering factors, construction costs and right-of-way needs, and public input. Numerous draft documents have been prepared to date and are available for review at Station 4 and on the project

F-D-O-T has prepared an evaluation matrix that compares the anticipated impacts associated with the No Further Action Alternative to the L-P-A, including potential effects on environmental resources, right-of-way, and construction cost estimates. Please refer to the display board in Station 4 for more information about potential impacts.

Tis SEIS (Mark Program Barn Sanmant #258237-2) | Dublic Massing | Sahruan 25 S. 27 202

The last movement consists of operation improvements to westbound I-4 <four> to southbound I-275 <two seventy-five>, including the widening of the southbound I-275 <two seventy-five> ramp from two lanes to three lanes through the interchange. The three lanes would join the two lanes from southbound I-275 <two seventy-five> to provide five lanes onto southbound I-275 <two seventy-five> before merging back to the existing four lanes at Jefferson Street. The exit to Downtown Tampa will be shifted to improve spacing. The exit ramp will still provide drivers with the same direct access to downtown like today. Shoulders would be widened on southbound I-275 <two seventy-five> between Palm Avenue and Jefferson Street to improve safety.

Project Kick Off/Notice of Intent to Prepare SEIS	January 17, 2017
Concept Development	Spring/Summer 2017
1st Public Workshop	October 2017
Concept Refinement	Winter 2017/2018
2 nd Public Workshop	May 2019
Notice of Public Availability/FHWA Approves Draft SEIS	January 27, 2020
Public Hearing	February 25 & 27, 2020
Finalize SEIS Documents	Spring/Summer 2020
NEPA Complete (Final SEIS/Record of Decision)	Fall 2020

This public hearing is being held tonight to present the results of the Draft S-E-I-S and to formally record all comments received on the document and recommended L-P-A. The Federal Highway Administration and F-D-O-T will make the final determination on the L-P-A and finalize the S-E-I-S documents after public and agency comments received are the public hearing have been fully considered and evaluated. F-D-O-T anticipates that the Federal Highway Administration will issue a combined Final S-E-I-S and Record of Decision by the end of 2020.

Project documents are available for review tonight at Station 4 and have been available on the project website and at four locations in Tampa, including the F-D-O-T District Seven office, the Robert W. Saunders Senior Public Library, the West Tampa Branch Library, and the Hillsborough Community College Dale Mabry Campus Library. The documents have been on display at these locations since February 4th <fourth> and will be available until March 12th <twelfth>.

EIS (Work Program Item Segment #258337-2) | Public Hearing | February 25 & 27, 2020

There are several ways to make a comment as part of the public hearing record. You can speak directly to either of the two court reporters who are here this evening anytime during the open house. A court reporter will also record verbatim the comments stated during the formal portion of the public hearing, which begins at 6:00 p.m. Please complete a speaker card and give it to an F-D-O-T representative at the sign-in table to indicate your interest to speak publicly. You may also complete a comment form located at the comments table and drop it in one of the comment boxes or mail written comments to the address provided on the back of the form. Additionally, comments may be submitted electronically through the comments page on the project website at www.ww</code> dot tampa interstate study dot com> or to D-T-IIS@dot.state.fl.us D-T-IIS@dot.state.fl.us D-T-IIS@dot.state

For more information on adjacent projects refer to: www.TampaBayNext.com

IS SEIS (Work Program Item Segment #258337-2) | Public Hearing | February 25 & 27, 202

This concludes the presentation for the T-I-S S-E-I-S. Thank you for attending tonight's public hearing. We appreciate your participation. Remember to be alert today. Alive tomorrow. Safety doesn't happen by accident.

HILLSBOROUGH COMMUNITY COLLEGE

FORMAL PUBLIC HEARING SCRIPT

Tampa Interstate Study | Supplemental Environmental Impact Statement
Project Development & Environment Study
Hearing Date: Tuesday, February 25, 2020

Location: Hillsborough Community College Dale Mabry Campus

OPENING

Good Evening.

Welcome to the Public Hearing for the Tampa Interstate Study (or TIS) Supplemental Environmental Impact Statement (or SEIS). This Project Development & Environment Study or PD&E Study encompasses improvements to Interstate 275, or I-275, from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard and Interstate 4, or I-4, from I-275 to east of 50th Street. The Work Program Item, or WPI, Segment Number is 258337-2. My name is Kirk Bogen, and I am the Environmental Management Engineer for District Seven of the Florida Department of Transportation or FDOT.

Today is <u>Tuesday</u>, <u>February 25</u>, <u>2020</u> and it is approximately 6:00 p.m. We are assembled at the Dale Mabry Campus of Hillsborough Community College in the Student Services Building located at 4001 West Tampa Bay Boulevard in Tampa, Florida.

Page 1 of 12

FDOT District 7 is conducting the hearing this evening to provide you with an opportunity to discuss the project and to submit comments on this PD&E Study. Public participation is encouraged and solicited without regard to race, color, religion, sex, age, national origin, disability, or family status.

This Public Hearing is being held and was advertised in accordance with applicable Federal and State requirements as shown on the citation board located next to the sign-in table and is being conducted in accordance with the Americans with Disabilities Act of 1990. This information is also provided in the project brochure you may have received in the mail or can be found at the sign-in table.

This public hearing is being conducted on two separate dates this week to allow for maximum participation. The format of each of the two hearing sessions and the information presented are identical. Both sessions will be combined into a single public hearing record for the PD&E Study.

age 2 of 12

The first session is tonight, the 25th day of February 2020, from 5:00 p.m. to 7:30 p.m. at the Dale Mabry Campus of Hillsborough Community College in Tampa, Florida.

The second session will be held on Thursday, February 27th, 2020 from 5:00 p.m. to 7:30 p.m. at the Port Tampa Bay Cruise Terminal #6 located at 1331 McKay Street in Tampa, Florida.

This is your opportunity to receive information on the Recommended Locally Preferred Alternative of the Tampa Interstate Study Supplemental Environmental Impact Statement PD&E Study and officially provide your comments to be included in the Public Hearing record. The proposed improvements of the Locally Preferred Alternative are based on environmental and engineering analyses completed to date, as well as public comments that have been received throughout the study. Results of the social, cultural, natural, and physical environmental analyses, documenting potential impacts, are contained in the documents on display here tonight and are available on the

project website. Staff are available to answer questions regarding these reports.

The proposed project would include full reconstruction of the Westshore Area Interchange to encompass three general purpose lanes and two new tolled express lanes in each direction, connecting the Howard Frankland Bridge and Westshore area to Downtown Tampa along I-275. The tolled express lanes would be constructed to the inside of the roadway. Additionally, a transit corridor in the median would be preserved to accommodate future transit.

The tolled express lanes would provide direct connections from I-275 to other major transportation facilities and extend to Ashley Drive/Tampa Street via direct connect ramps, providing drivers direct access to and from Downtown Tampa. These express lanes do not continue through the I-275/I-4 interchange. In the I-275/I-4 interchange area, the proposed improvements would enhance safety and traffic operations by widening the ramps and

Page 4 of 12

Page 3 of 1

eliminating the existing weaving condition. Access to Floribraska Avenue would be maintained.

Overall, the proposed project would upgrade the safety and efficiency of the existing I-275 and I-4 corridors that service the Tampa Bay region while maintaining access to the surrounding community.

Now I am going to give you some information about right-of-way acquisition and how you can make comments on the project. On projects such as this, one of the unavoidable consequences is the necessary acquisition of properties and the relocation of families and businesses. As shown on the concept plans on display at today's hearing, additional right-of-way will be needed for the Locally Preferred Alternative. For this project, we anticipate the relocation of 6 residences and 22 businesses. All right-of-way acquisition will be conducted in accordance with Florida Statute 339.09 and the federal Uniform Relocation

Assistance and Real Property Acquisition Policies Act of 1970, commonly known as the Uniform Act.

If you are required to make any type of move as a result of a Department of Transportation project, you can expect to be treated in a fair and helpful manner and in compliance with the Uniform Relocation Assistance Act. If a move is required, you will be contacted by an appraiser who will inspect your property. We encourage you to be present during the inspection and provide information about the value of your property.

You may also be eligible for relocation advisory services and payment benefits. If you are being moved and you are unsatisfied with the Department's determination of your eligibility for payment or the amount of that payment, you may appeal that determination.

You will be promptly furnished necessary forms and notified of the procedures to be followed in making that appeal.

Page 6 of 1

Page 5 of 12

A special word of caution - if you move before you receive notification of the relocation benefits that you might be entitled to, your benefits may be jeopardized.

The acquisition and relocation specialists who are supervising this program are Paul Maddox (back up: Lu Ann Fritz) and Susan Cooper (back up: Josh Eaton). They will be happy to answer your questions and will also furnish you with copies of relocation assistance brochures.

Paul (Lu Ann) and Susan (Josh) please stand <pause> so that anyone who is involved in acquisition and relocation on this project will know who they need to see regarding their property. Thank you.

When you arrived this evening, you should have received a copy of the project brochure. If you were not able to sign-in or did not receive the brochure, please stop by our sign-in table before leaving this evening. If you have not already done so, please feel

free to watch the presentation that is running continuously at the Public Hearing tonight in the adjacent room. It describes the Recommended Locally Preferred Alternative of the Tampa Interstate Study Supplemental Environmental Impact Statement PD&E Study in greater detail.

Pause.....

Before I continue, I would like to recognize any elected officials or their representatives who are here tonight. Please stand and introduce yourself for the record.

Pause......

Anyone desiring to make a statement or present written views and/or exhibits regarding the location; conceptual design; or social, economic, and/or environmental effects of the project will now have an opportunity to do so.

Page 7 of 12

age 8 of 12

You may also make a statement at the public hearing's second session scheduled for Thursday, February 27th, 2020 at Port Tampa Bay Cruise Terminal #6 in Tampa, Florida.

Those who wish to provide comments during this formal portion of the Public Hearing should complete a speaker's card and submit it to a Department representative. If you did not receive a speaker's card and would like to make a public comment, please raise your hand and an FDOT representative will be happy to provide you with one. In addition to making an oral statement during this portion of the hearing, you can also make a comment to the court reporters here tonight < gesture to court reporter near podium> after this formal portion of the public hearing. You may also submit your comments to FDOT in writing. Comment forms can be placed in one of the comment boxes this evening, or you can complete the form at a later time and mail it to us at the preprinted address on the back of the form. You may also submit comments to us electronically either by e-mail or from the project website at the addresses found on the front of the project

brochure. Please keep in mind that comments must be postmarked or e-mailed no later than Thursday, March 12, 2020 to be included in the official public hearing record.

At this time, we will begin taking public comments. I will call each speaker in the order in which the speaker card was received.

Please limit your comments to the Tampa Interstate Study Supplemental Environmental Impact Statement PD&E Study and keep them to three (3) minutes in order to allow everyone an opportunity to speak.

Those who wish to provide additional comments may return to the microphone following the last speaker, if time permits, or you may present additional comments directly to the court reporters at the end of the formal portion of tonight's hearing.

As I call your name, please step to the microphone and state your name and address clearly into the microphone before making your comment so the court reporter can capture that information.

Page 10 of 12

Page 9 of 12

If you represent an organization, municipality, or other public agency, please provide that information as well. If you have questions, please see one of the FDOT representatives following this portion of the hearing.

The first speaker is ______.

Please come to the microphone.

LAST SPEAKER

Is there anyone else who would like to make a statement?

The public hearing transcript, written statements, exhibits, and reference materials will be available for public inspection within three (3) weeks at the FDOT District Seven Office located at 11201 North McKinley Drive, Tampa, Florida.

It is approximately (STATE THE TIME). I hereby officially suspend the formal portion of the public hearing for the Tampa

Page 11 of

Interstate Study Supplemental Environmental Impact Statement PD&E Study.

This hearing will be continued at the second session on Thursday, February 27th, 2020 from 5:00 p.m. to 7:30 p.m. at the Port Tampa Bay Cruise Terminal #6 in Tampa, Florida.

You may continue to view the materials on display and speak with our project staff. On behalf of the Florida Department of Transportation, thank you for attending. Remember to be Alert Today, Alive Tomorrow. Safety doesn't happen by accident.

Good night and thank you for your time.

PORT TAMPA BAY

FORMAL PUBLIC HEARING SCRIPT

Tampa Interstate Study | Supplemental Environmental Impact Statement Project Development & Environment Study Hearing Date: Tuesday, February 27, 2020

Location: Port Tampa Bay Cruise Terminal #6

OPENING

Good Evening.

Welcome to the Public Hearing for the Tampa Interstate Study (or TIS) Supplemental Environmental Impact Statement (or SEIS). This Project Development & Environment Study or PD&E Study encompasses improvements to Interstate 275, or I-275, from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard and Interstate 4, or I-4, from I-275 to east of 50th Street. The Work Program Item, or WPI, Segment Number is 258337-2. My name is Kirk Bogen, and I am the Environmental Management Engineer for District Seven of the Florida Department of Transportation or FDOT.

Today is <u>Thursday, February 27, 2020</u> and it is approximately 6:00 p.m. We are assembled at Port Tampa Bay Cruise Terminal #6 located at 1331 McKay Street in Tampa, Florida.

Page 1 of 12

FDOT District 7 is conducting the hearing this evening to provide you with an opportunity to discuss the project and to submit comments on this PD&E Study. Public participation is encouraged and solicited without regard to race, color, religion, sex, age, national origin, disability, or family status.

This Public Hearing is being held and was advertised in accordance with applicable Federal and State requirements as shown on the citation board located next to the sign-in table and is being conducted in accordance with the Americans with Disabilities Act of 1990. This information is also provided in the project brochure you may have received in the mail or can be found at the sign-in table.

This public hearing is being conducted on two separate dates this week to allow for maximum participation. The format of each of the two hearing sessions and the information presented are identical. Both sessions will be combined into a single public hearing record for the PD&E Study.

age 2 of 12

The first session was held on Tuesday, February 25th, 2020 from 5:00 p.m. to 7:30 p.m. at the Dale Mabry Campus of Hillsborough Community College in the Student Services Building located at 4001 West Tampa Bay Boulevard in Tampa, Florida.

The second session is being conducted tonight, Thursday, February 27th, 2020 from 5:00 p.m. to 7:30 p.m. at Port Tampa Bay Cruise Terminal #6 in Tampa, Florida.

This is your opportunity to receive information on the Recommended Locally Preferred Alternative of the Tampa Interstate Study Supplemental Environmental Impact Statement PD&E Study and officially provide your comments to be included in the Public Hearing record. The proposed improvements of the Locally Preferred Alternative are based on environmental and engineering analyses completed to date, as well as public comments that have been received throughout the study. Results of the social, cultural, natural, and physical environmental analyses, documenting potential impacts, are contained in the

documents on display here tonight and are available on the project website. Staff are available to answer questions regarding these reports.

The proposed project would include full reconstruction of the Westshore Area Interchange to encompass three general purpose lanes and two new tolled express lanes in each direction, connecting the Howard Frankland Bridge and Westshore area to Downtown Tampa along I-275. The tolled express lanes would be constructed to the inside of the roadway. Additionally, a transit corridor in the median would be preserved to accommodate future transit.

The tolled express lanes would provide direct connections from I-275 to other major transportation facilities and extend to Ashley Drive/Tampa Street via direct connect ramps, providing drivers direct access to and from Downtown Tampa. These express lanes do not continue through the I-275/I-4 interchange. In the I-275/I-4 interchange area, the proposed improvements would

Page 4 of 12

Page 3 of 12

enhance safety and traffic operations by widening the ramps and eliminating the existing weaving condition. Access to Floribraska Avenue would be maintained.

Overall, the proposed project would upgrade the safety and efficiency of the existing I-275 and I-4 corridors that service the Tampa Bay region while maintaining access to the surrounding community.

Now I am going to give you some information about right-of-way acquisition and how you can make comments on the project. On projects such as this, one of the unavoidable consequences is the necessary acquisition of properties and the relocation of families and businesses. As shown on the concept plans on display at today's hearing, additional right-of-way will be needed for the Locally Preferred Alternative. For this project, we anticipate the relocation of 6 residences and 22 businesses. All right-of-way acquisition will be conducted in accordance with Florida Statute 339.09 and the federal Uniform Relocation

Assistance and Real Property Acquisition Policies Act of 1970, commonly known as the Uniform Act.

If you are required to make any type of move as a result of a Department of Transportation project, you can expect to be treated in a fair and helpful manner and in compliance with the Uniform Relocation Assistance Act. If a move is required, you will be contacted by an appraiser who will inspect your property. We encourage you to be present during the inspection and provide information about the value of your property.

You may also be eligible for relocation advisory services and payment benefits. If you are being moved and you are unsatisfied with the Department's determination of your eligibility for payment or the amount of that payment, you may appeal that determination.

You will be promptly furnished necessary forms and notified of the procedures to be followed in making that appeal.

age 6 of 12

A special word of caution - if you move before you receive notification of the relocation benefits that you might be entitled to, your benefits may be jeopardized.

The acquisition and relocation specialists who are supervising this program are Paul Maddox (back up: Lu Ann Fritz) and Yemile Hernandez (back up: Josh Eaton). They will be happy to answer your questions and will also furnish you with copies of relocation assistance brochures.

Paul (Lu Ann) and Yemile (Josh) please stand <pause> so that anyone who is involved in acquisition and relocation on this project will know who they need to see regarding their property. Thank you.

When you arrived this evening, you should have received a copy of the project brochure. If you were not able to sign-in or did not receive the brochure, please stop by our sign-in table before leaving this evening. If you have not already done so, please feel

free to watch the presentation that is running continuously at the Public Hearing tonight in the adjacent room. It describes the Recommended Locally Preferred Alternative of the Tampa Interstate Study Supplemental Environmental Impact Statement PD&E Study in greater detail.

Pause......

Before I continue, I would like to recognize any elected officials or their representatives who are here tonight. Please stand and introduce yourself for the record.

Pause......

Anyone desiring to make a statement or present written views and/or exhibits regarding the location; conceptual design; or social, economic, and/or environmental effects of the project will now have an opportunity to do so.

Those who wish to provide comments during this formal portion of the Public Hearing should complete a speaker's card and submit

age 8 of 12

Page 7 of 12

it to a Department representative. If you did not receive a speaker's card and would like to make a public comment, please raise your hand and an FDOT representative will be happy to provide you with one. In addition to making an oral statement during this portion of the hearing, you can also make a comment to the court reporters here tonight < gesture to court reporter near podium> after this formal portion of the public hearing. You may also submit your comments to FDOT in writing. Comment forms can be placed in one of the comment boxes this evening, or you can complete the form at a later time and mail it to us at the preprinted address on the back of the form. You may also submit comments to us electronically either by e-mail or from the project website at the addresses found on the front of the project brochure. Please keep in mind that comments must be postmarked or e-mailed no later than Thursday, March 12, 2020 to be included in the official public hearing record.

At this time, we will begin taking public comments. I will call each speaker in the order in which the speaker card was received.

Page 9 of 12

Please limit your comments to the Tampa Interstate Study Supplemental Environmental Impact Statement PD&E Study and keep them to three (3) minutes in order to allow everyone an opportunity to speak.

Those who wish to provide additional comments may return to the microphone following the last speaker, if time permits, or you may present additional comments directly to the court reporters at the end of the formal portion of tonight's hearing.

As I call your name, please step to the microphone and state your name and address clearly into the microphone before making your comment so the court reporter can capture that information. If you represent an organization, municipality, or other public agency, please provide that information as well. If you have questions, please see one of the FDOT representatives following this portion of the hearing.

PUBLIC HEARING COMMENT FORM

Tampa Interstate Study (TIS) Supplemental Environmental Impact Statement (SEIS)
I-275 from the Howard Frankland Bridge to north of Dr. Martin Luther King Jr. Boulevard and I-4 from I-275 to east of 50th Street
(Work Program Item Segment No. 258337-2)

Comments may be provided the following ways: mail comments to the address on the back of this form, complete the form at one of the hearing sessions and place in the "Comments" box, email comments to D7-TIS@dot.state.fl.us, or visit the website at www.tampainterstatestudy.com.

Comments must be submitted or postmarked by March 12, 2020 to become part of the official public hearing record.

As a commuter from the downtown St. Pete area to the Tampa
As a commeter from the downtown St. lete area to the Tampa Targounds area for employment, I have driven ID 75 N to I-4E hetween war 7 Am M-F and sometimes SATURDAYS W/Wrong-way drivers on the H.F. bridge during my commute. I would like to know these changes include safety measures to help ease or eliminate these scary and dangerous commutes.
between GAM & 7AM M-F and sometimes SATURDAYS W/Wrong-Way
drivers on the H.F. bridge during my commuter I would like
to Know these changes include safety measures to help ease
or eliminate these scary and dangerous commutes.

I think we need to focus on alternative made the interstante we need to focus on not only provide safe bike lanes. Bike lanes need to his like lanes and car lanes. In Europe they had and don't take up much space (as do a meaning ht to add visibility and help the bikers connectivity between the neighbor hood sceneral reights, etc., As long as people not be utilized by the majority and the opine should make great use of the train-able to vie /convert the train tracks for p	providing bike lanes, but we would be muse a physical barrier between the we metal posts that divide the lanes lian). Posts can also bod be lit at regulat feel safe we need better is VM your to larer tampa heights, don't feel safe in bike lanes, they will be lost. Make them safe!
